

FOR TWENTY YEARS MAJOR MARS SUFFERED FROM CATARRH OF THE KIDNEYS.

DANGEROUS KIDNEY DISEASES CURED

Pe-ru-na Creating a National Sensation in the Cure of Chronic Afflictions of the Kidneys.

Major T. H. Mars, of the First Wisconsin Cavalry regiment, writes from 1425 Dunning street, Chicago, Ill., the following letter:

"For years I suffered with catarrh of the kidneys contracted in the army. Medicine did not help me any until a comrade who had been helped by Peruna advised me to try it. I bought some at once, and soon found blessed relief. I kept taking it four months, and am now well and strong and feel better than I have done for the past twenty years, thanks to Peruna."

At the appearance of the first symptom of kidney trouble, Peruna should be taken. This remedy strikes at once the very root of the disease. It at once relieves the catarrhal kidneys of the stagnant blood, preventing the escape of serum from the blood. Peruna stimulates the kidneys to excrete from the blood the accumulating poison, and thus prevents the convulsions

which are sure to follow if the poisons are allowed to remain. It gives great vigor to the heart's action and digestive system, both of which are apt to fail rapidly in this disease. Peruna cures catarrh of the kidneys simply because it cures catarrh wherever located. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

WOMAN KILLED RYAN

MRS. AURORA HEDGES ADMITS KILLING PEDDLER.

Declares Ryan Attacked Her and She Killed Him Unaided, After Which She Feared to Give Herself Up.

On Sunday, Mrs. Aurora Hodge, a woman, 19 years of age, whose home is in Denison, Iowa, walked into the police station at Grand Rapids, Mich., and declared that she wished to give herself up, saying that on July 11th, she had shot and killed William X. Ryan, a peddler, near Salt Lake City.

Mrs. Hodge, who claims to be 19 years of age, says that she had left her husband in California and came to Ogden. Here she met Ryan, who engaged her to accompany him in his travels over the country and act as his bookkeeper. When near Salt Lake City, she claims, he made an assault upon her, when she shot him in self-defense. She intended to give herself up to the police, but her nerve failed her and she took what money she could find upon Ryan's person and bought a ticket for Denison, Iowa, where her brother and foster parents live. She claims she told her brother what she had done and he advised her to surrender herself to the authorities or he would tell them himself. She then left Denison and went to Chicago, where, through an employment agency, she secured a position as waitress at a hotel at Spring Lake, near Grand Rapids, Mich. Then she made up her mind to surrender and went to Grand Rapids for that purpose.

This is the woman's story, but it is not credited by the police, although they believe she was implicated in the murder.

On the afternoon of Tuesday, July 14th, the body of William X. Ryan, a spectacle vendor, was found in a willow thicket two miles east of Murray. The body was in advanced stages of decomposition and presented a horrible sight. It had been carefully wrapped in blankets, and investigation showed that death had resulted at least forty-eight hours before the discovery was made.

That murder had been committed was apparent. Evidence of the crime was found in profusion. The peddler's dog was fastened to the tongue of the wagon; his horses were tethered near by. The body was found lying face downward. When the blankets were removed a deep gash was found in the man's head. The physician, however, said that this wound did not cause his death. His legs were bound with a whipcord. His hands were fastened rigidly with a cord, while a strap encircling his body was bound tightly around his neck. It developed that the crime was committed at midnight July 11th.

Neighbors in the vicinity of the corpse declared that they had seen a woman with the wandering merchant on the day before the crime was committed. It is believed Mrs. Hodge had assistance in the crime and further developments are expected. She will be brought back to Salt Lake City at once.

Seventy-five Boys Poisoned.

Seventy-five boys in the State reform school at Whittier, Cal., are suffering from illness, the cause for which has not yet been determined. Six of the boys are in a serious condition and were supple delirious from what is presumed to be poisoning of some sort. Dr. F. H. Hadley, the physician in charge, is investigating the sudden epidemic, and until the investigation is completed it will not be known whether the sick boys are suffering from ptomaine poisoning contracted from food given them or from poison intentionally mixed with the food.

This Policeman is a Candidate for the Gallows.

Mrs. Charles F. Ritter is dying in Cincinnati under unusually distressing circumstances. Her husband is a policeman. They have been separated for ten months. She says he broke into her apartments at night and poured carbolic acid all over her. Ritter later met another policeman and explained that he turned his hands and clothing while trying to prevent his wife from committing suicide. Ritter cannot be found.

Pittsburg Miners Win.

The conference commission of the coal miners and operators of the southwest at Pittsburg, Kans., finally reached a decision, which later was accepted by the interstate convention. The new scale, which affects 50,000 miners in Kansas, Missouri, Indian Territory, Arkansas and Texas, goes into effect on September 1st. It provides for 72 cents a ton, an increase of 7 cents a ton over last year, an increase on day wage scale of about 25 per cent, eight hours for a day's work and a complete recognition of the union.

Hold-ups Were Foiled.

Information was received by the Southern Pacific officials, says an Oregon City, Ore., dispatch, that its train was to be held up Sunday night, and the passengers returning to Portland from the Chautauque assembly at Gladstone, a place about three miles north of Oregon City, were to be robbed. A large force of officers were immediately detailed to the scene, and the track was patrolled for a considerable distance. In addition to this the train was brought into Portland under a guard.

PANAMA IN STATE OF PANIC.

General Cobas About to Seize the Reins of Government.

A special from Panama, Colombia, dated July 20, says: "Since the days of the last revolution, when an attack upon the city by the liberals was feared, has there been such a panic in Panama as occurred last night. Shortly after 9 o'clock the office of El Lapiz, the organ of the liberal party on the left, was visited by officers of the general staff of the army, who destroyed yesterday's edition of the newspaper. One of the directors was slightly wounded, but managed to escape.

The news spread rapidly. In the Santa Ana neighborhood, where most of the liberals reside, sentiment rose to a high pitch and a few of the prominent people counseled retaliation. They took no action, however.

The next event came like a bombshell. A company of soldiers, apparently under the orders of General Vasquez Cobas, commander of the national forces, surrounded the residence of Governor Mutis, but the governor and his wife, who is an American woman, having been warned a few minutes before the arrival of the troops, succeeded in escaping.

General Huertas, commander of the battalion of Colombia, when he learned of the El Lapiz incident, retired to headquarters, where he found General Cobas. According to current reports, the latter ordered General Huertas to remain in quarters. Exactly what has taken place is unknown, but it is said that Dr. Ariles Arjona, secretary of the government, Fernando Arango, chief of police, and Etrian Navia, a member of the departmental superior tribunal of justice are under arrest, the last named for trying to argue with General Cobas the illegality of his action.

An attempt also is said to have been made to arrest Senor Guerra, secretary of finance, but he refused to accompany the officer who went to arrest him. When the officer returned with soldiers to effect his capture Guerra had departed. The only civil official on the street this morning was Mayor Ossa. Governor Mutis spent last night at the British consulate, but it is rumored that he will take refuge in the American consulate.

It is rumored that General Cobas offered the governorship to different conservatives, who refused to accept, and that he himself will assume civil command. It is said that Consul Adler attempted to send a cable to the United States, but that a State minister at Bogota, but that he refused to accept the message.

IN HANDS OF MOB.

Noters and Officers Clash at Danville, Ill., Mob Being Foiled.

A race war broke out at Danville, Ill., Saturday night. While a mob of 50 men was on its way to the county jail to lynch James Wilson, a Birmingham negro, who had confessed to assaulting Mrs. Thomas Burgess, wife of a farmer, an unknown negro shot and killed Henry Getteman, white, a member of the mob.

The murderous negro, a refugee from Evansville, Ind., named J. W. Mayfield, was then lynched by the mob and three other negroes who attacked the whites were beaten badly. The mob finally resumed its march to the county jail, determined to lynch Wilson. When the mob reached the jail it was fired upon by the sheriff. Nine persons were seriously wounded and the crowd scattered.

Peanuts Cure Insomnia.

If you wish to be cured of insomnia eat a pint of freshly roasted peanuts just before retiring. Secretary Wilson assures his friends that this remedy is a sure thing and that a pint of peanuts every night has relieved him from an insomnia with which he has suffered for years. A number of prominent men who have tried the secretary's remedy say that it works like a charm. The governors must be freshly roasted and a full pint of them consumed.

Woodchopper Was a Fighter.

James Casey, a deputy constable, was killed at San Andres, Cal., by Julius Demartini, a woodchopper, who was arrested by Casey for making a disturbance. Demartini walked peacefully to the jail, and when he reached the cell door he turned suddenly and shot Casey twice in the body killing him instantly. Deputy Sheriff Thorn was standing a few feet away and Demartini opened fire on him, but missed his mark. Three of Casey's brothers followed Demartini, and in a fight that ensued he was fatally

Hanged a Negro Woman.

The negroess, Jennie Spear, who administered poison to Jennie Dolan, 16-year-old daughter of John Dolan, from the effects of which she died, was lynched by a mob at Shreveport, La. The woman was pursued by a posse, who found her crouching in a hay lot. She refused to come out, and had to be dragged from the place. She asserted her innocence, but was identified. The mob took her to a nearby tree, placed a rope around her neck and again asked her to confess, but she declared her innocence to the last.

BILL NYE TO MAJOR POND.

Characteristic Letter of the Late Lamented Humorist.

More than one successful lecture star has had to thank Major Pond for his start. He had been discriminated and not infrequently sought out and dragged upon the platform an obscure genius who never thought to see himself before the footlights. Such a genius was Bill Nye. When the major found him he was acting as postmaster and editing the Laramie Boomerang over a lively stable. (Walk down the Alley, Twist the Gray Mule's Tail, Take the Elevator Immediately!)"

Pond persuaded him to try lecturing, and as there proved to be both money and useful publicity in it, Nye was grateful, and used for years to remember the major with characteristic notes, one of which had the following exhaustive signature:

"Yours with a heart full of gratitude and a system full of drugs, paints, oil, turpentine, glass, putty, and everything usually kept in a first-class drug store.

A FEW ODD SUPERSTITIONS.

They Are of Interest to Mothers and Pretty Girls.

"Up in Bucks county last week," said a traveler, "an old woman recounted to me some odd superstitions. These, she declared, she and all her friends believed in implicitly.

"One regarded new-born babies. When the baby is taken for the first time into a strange house to dine an egg and a piece of bread should be given to it by the house's owner. Otherwise the child will have bad luck for ten days.

"Another regarded marriageable maids. When a maiden is shelling peas she should, if she find a pod with nine peas in it, put it over the house door; then the first young man to enter the house through the door will marry her."—Philadelphia Record.

Few Gold Thimbles Used.

"Gold thimbles," said the jeweler, "are never to be seen nowadays. Times were when every young woman had one. They were a regulation birthday or Christmas present. But the young American girl of to-day would be disgusted with the gift of a gold thimble. She would much rather have one of those long, red automobiles or a good caddy horse. The word thimble in the past was thumble. It was worn, you know, on the thumb."—Philadelphia Record.

Where Solomon Got His Wisdom.

The little boy was asked by a Sunday school teacher to write all he knew about Solomon and hand his paper to her the next Sunday. The following Sunday he handed her a slip of paper on which was written: "King Solomon was a great and wise man. He had 100 wives. After that he did not believe in God."—New York Times.

Little Jennie's Discovery.

When electric lights were introduced into the small town on Martha's Vineyard, where little Jennie lives, she went out walking one evening with her mother. Suddenly coming out from under some trees she saw the magic light for the first time in her life. "Oh, mamma!" she cried, fairly dancing with excitement; "mamma, look! See the moon; it's on a stick tonight!"

Wroth Against Bismarck.

The wrath of Parisians is being hurled at the memory of Bismarck. In some recently published letters the entry of the Prussian troops into the French capital in January, 1871, is thus described by the Iron Chancellor: "Thousands of light-hearted Parisians, arm in arm, followed our soldiers."

Too Great a Risk.

An insurance agent called at the house of a newly married couple and during the conversation urged the husband to take out a policy, but when he heard the fair young wife say to her husband, "Yes, do so, Charlie, and I'll make you some nice pastry for your supper," he stood a moment, as if considering the risks, and then he closed his book and fled.

Mrs. Anderson, a prominent society woman of Jacksonville, Fla., daughter of Recorder of Deeds, West, says:

"There are but few wives and mothers who have not at times endured agonies and such pain as only women know of. I wish such women knew the value of Lydia E. Pinkham's Vegetable Compound. It is a remarkable medicine, different in action from any other I ever knew and thoroughly reliable.

"I have seen cases where women doctored for years without permanent benefit who were cured in less than three months after taking your Vegetable Compound, while others who were chronic and incurable came out cured, happy, and in perfect health after a thorough treatment with this medicine. I have never used it myself without gaining great benefit. A few doses restores my strength and appetite, and tones up the entire system. Your medicine has been tried and found true, hence I fully endorse it."—Mrs. R. A. ANDERSON, 325 Washington St., Jacksonville, Fla.—\$5000 forfeit if original of above testimonial proving genuineness cannot be produced.

The experience and testimony of some of the most noted women of America go to prove, beyond a question, that Lydia E. Pinkham's Vegetable Compound will correct all such trouble and, once by restoring the causes, and restoring the organs to a healthy and normal condition.

much pain in my back; as time went on I could hardly endure it; I could not stand except for a few moments at a time; I grew weak and exhausted; I could not even do light housework; I could not sleep or bend; my head ached severely; I was in pain from my head down to my heels; centering in the kidneys it was a heavy, steady, sickening ache; I could not rest nights, and got up mornings weak and tired. I thought I was about done for, when I saw Doan's Kidney Pills advertised. Within a week after commencing their use I began to improve, and from that time on rapidly grew better. I used five boxes in all and was cured."
